

## Basic and Premium Membership Comparison

The Society has both Basic Membership and a Premium Membership. Each type of membership provides benefits to the member and the premium level provides you with the most benefit for those on the path to certification. You are not required to become a member of the Society to take our Level 1-5 training.

However, as you can see below, there is a significant amount of value in doing so. And, for the individual aspiring to achieve Society certification, our Premium Membership will provide you with the most intentional path to get there. One significant feature of this is the 10-page *Consultant's Development Plan Template*. This tool will enhance your development in significant ways.

- (2) Twice a year (Feb-Apr and Sep-Nov) we form live cohorts of up to 10 participants that meet online using a webinar tool for completion of Levels 1-4. There are 10 sessions with 70 minutes of lecture and 20 minutes of Q&A and discussion online.
- (3) The online webinar sessions are recorded, so you can also start these at any time and move at your own pace. If you intend to move toward certification, you are required to submit a very brief written report after the completion of each of the 10 sessions.
- (4) We have our 3-day Generalist Track (same as #1 above) and our Strategic Planning training recorded on high-definition DVD and these can be purchased online and shipped to you. If you intend to move toward certification, you are required to submit a brief written report after the completion of each Level (a total of 4 reports).
