DOCTRINE - SURVEY SCORING

DOCTRINE

For the purposes of this survey, we do not include these scores in computing your church's overall health score. It is important, though, for you to know what your church believes in these areas. A church's doctrine clearly affects how a church carries out its functions (e.g., a church that does not believe people must follow Jesus to be saved will not likely do much evangelism).

151 People of non-Christian faiths can worship God in the same way Christians do.
